FIRTH'S INDIAN PHOTOGRAPHS.

SEASON 1875-76.

MESSRS. THACKER, VINING & Co. desire to draw especial attention to the above Series of Photographs, which has now been completed by the addition of some 200 Views taken by an Artist, who passed the Season of 1874-75 in India for that special purpose.

The additions made include Views of the New Buildings in Bombay, a Series of Matheran Scenery, Views at Bassein, Poona, Nassick, and at all places of interest in this residency, as well as a large number of Views in Calcutta, Madras, &c., &c.

The entire Series now consists of over 500 Photographs, size 8 inches by 6½, the subjects being most artistically chosen and photographed, and exquisitely printed; they are certainly equal, if not superior, to any that have yet been produced, whilst they are sold at the remarkably cheap rate of

COMMERCIAL INTELLIGENCE

SATURDAY EVENING, 24TH FEBRUARY.

We have not heard of any fresh political intelligence up to the time of writing, but if Reuter's quotations are correct Consols have advanced from 95⅞ to 96⅛, while French Rentes remain at 106½, which would indicate an improved feeling.

The Liverpool Cotton Market goes from bad to worse, yesterday's report being dull, sales 8,000 bales and to-day's dull, sales only 4,000 bales. Spot prices are 1/16d. per lb. lower all round, both in Surats and American, and arrival rates are also lower, F. G. F. Omra nothing below, Decembe-January shipment Canal, being quoted at 5¾d., and G. F. Omra, with the G. F. clause, February-March shipment, Cape, at 5¾d. per lb. These rates represent a drop of about ¾d. per lb. from the highest point of six weeks ago, and to all appearance the decline is not yet at an end, the tone of the Liverpool Market according to private advices being weak to a degree. The American receipts are certainly beginning to fall off, the decrease last week being 25,000, with the probability of another 20,000 bales being lost next week, but even so the ultimate total crop cannot well fall short of 4½ millions of bales, a figure which does not justify present prices. At all events, not when we take into consideration the other adverse influences now prevailing in the critical state of affairs on the Continent, and the drop in the Eastern Exchanges which, of course, becomes a serious consideration in Piece Goods. So far prices in Manchester have not given way very rapidly, yesterday's quotations being the same as Tuesday's, with the exception of a decline of 1½d. in Mulls and ¾d. per piece in Jaconets, but the market is undoubtedly flat with more sellers than buyers.

Yesterday's New York telegrams show a fall in three days of ⅛c. in spot cotton and 5-16 cents in Futures, Ready Mid. Uplands being quoted at 14½ and May shipment at 12 11-16 cents, per lb. The American crop figures to date give the following comparisons with the two previous years :—

THE First Number of the New Series of the OVERLAND SUMMARY OF THE BOMBAY GAZETTE shows considerable improvement on anything we have yet seen turned out in similar shape. It contains 32 pages, and is replete with interesting information on Indian subjects generally. At the price, *four annas*, the *Summary* is ridiculously cheap. Sixty-nine columns of closely printed reading matter all for a mere sixpence! The fact is almost beyond belief, but it is a very marvellous one. In addition to a well-arranged and judiciously-selected mass of intelligence there is a series of articles on the topics of the times, reproduced from the daily editions of the *Bombay Gazette*. On the whole, or taking it all in all, the *Overland Summary*, published at the *Bombay Gazette* Press, is about the best, if it is not the best, we have seen; and people desirous of keeping their friends in the mother-country well informed of all that is transpiring in this far-off land would be guilty of an unpardonable sin of omission if they neglected forwarding by each Mail copies of the really excellent publication we have been noticing.—*Sindian*.

Mr. J. O'Kinealy has refused the appointment of Deputy Secretary in the Legislative Department, about to be vacated by Mr. Fitzpatrick. THE FRONTIER TRIBES.

LAHORE, 25TH FEB.

News received from Kohat announces that Afreedee matters are far from an amicable settlement as they are more than ever determined to fight. They declare they would rather die than give up their independence without fighting. The Hassenkhels have, however, agreed to furnish hostages for their future good conduct to the number of twenty-five. They have consented to the adjustment of the claims on them since the blockade by the restitution of the property plundered from the British and by the payment of one thousand rupees. Niam Shah is implicated in the Nowshera raid and is responsible for all offences perpetrated on the borders. On the 15th the Afreedees appeared within crest of the Kotal, near Kohat, with best of drums and fired on the police tower but without effect.

OPENING OF THE GERMAN PARLIAMENT.

BERLIN, 23RD FEB.

The German Parliament was opened to-day by the Emperor William in person. His Imperial Majesty in the speech from the Throne said that the concert among the European Powers on the Turkish Question justified the confidence in the maintenance of peace between the Great Powers, even supposing the Porte should fail to execute the Reforms promised, or the negotiations for peace now going on end in failure. His Majesty said that the interests of Germany did not prescribe any definite course to be followed in the Eastern Question but that she will continue her efforts for the maintenance of the European peace and protection of the Christians in Turkey.

It is considered probable that Sir Richard Temple will take a run home to England for a month, leaving Lady Temple at Mahableshwur, before he assumes the office of Governor of Bombay.

One of our telegrams from Calcutta mentions the offer of the Deputy Secretaryship, Legislative Department, to Mr. O'Kinealy, who refused the appointment. We presume this offer must have been made before Mr. Jardine was asked to take the Deputy Secretaryship.

We published last Friday a telegram from Calcutta stating that Mr. LeMesurier's appointment of Agent to the G. I. P. Railway Company will not be filled up for a year, so that he may return to Bombay if Egypt does not suit him. We observe that this telegram merely reproduces a "we hear" paragraph in the *Indian Daily News*, and the rumour is, we have reason to believe, incorrect, as the Directors of the G. I. P. Railway have already accepted Mr. Le Mesurier's resignation.

Major General Sir Henry Norman is expected to leave for England about the 12th proximo.

It is stated that Pandit Kirpa Ram has finished his valuable translation in Hindi of Todhunter's Dynamics and Statics, which is now in course of publication.

Mr. Charles Mathews is said to be writing his autobiography. This should be an interesting work, and no one could do such full justice to the subject as Mr. Mathews.

It is proposed to entertain the Hon. R. S. Ellis, C. B., at a public dinner, previous to his departure from Madras to take his seat in the Council of the Secretary of State for India.

The great Sanskritist of the Civil Service, Mr. F. C. Growse, M. A., has just brought out, at the Allahabad Government Press, the first book of his translation of the Hindi version of the Ramayana by Tulsi Das.

The will of the late Commodore Vanderbilt is published in the New York papers. There are bequests to the amount of about £3,000,000, but none for charitable or public purposes. The bulk of his fortune is left to his son, Mr. W. H. Vanderbilt. The total amount of property dealt with in the will is not stated, but the *New York Herald* says that it is estimated at between £16,000,000 and £20,000,000.

There was a very pleasant party of native ladies and children at Lady Hobhouse's last Monday evening. A few European ladies were also present on the occasion. The Lord Bishop of Calcutta, Major General Sir Henry Norman, Archdeacon Baly and one or two native gentlemen were also among the guests. Sir Arthur and Lady Hobhouse were most kind, and the entertainment was altogether a success. May we not hope, adds the *Indian Mirror*, other European ladies will follow the example? We are very sorry Lady Hobhouse leaves India in the second week of April.

Great interest is at present felt among the mercantile community of Calcutta with reference to the issue of the case of Williamson *vs.* Barbour in the High Court. It appears that Messrs. Williamson & Co. impeach the integrity of Messrs. Barbour Brothers' conduct as Agents, and accuse them of subjecting them (Messrs. Willamson & Co,) to certain charges, through a long course of years, which have never been incurred, and which, if incurred, have been greatly exaggerated, and altogether contrary to the customs and usages of trade.

The *Neilgherry Courier* gives the following account of an amusing occurrence that took place the other day at Wellington. Two soldiers of the depôt went to a native village, and being in a state of semi-intoxication, made themselves generally disagreeable to the inhabitants. The Monegar of the village—a Toda—is a man of good physique, and one who has evidently never been convinced that the British soldier is invincible. He seized both of the unwelcome intruders, clasping each of them round the waist, and dragged them off to the barracks, where their arrival was hailed with considerble amusement. Thus the British Army has sustained a severe defeat at Wellington.

The Ordnance Committee which is to assemble at Calcutta to-day under the Presidency of Colonel Napier Campbell, R. A., Deputy Inspector General, Madras, includes Lieutenant-Colonel Clarke, R. A., Deputy Inspector-General of Ordnance, Bombay; Major Welsh, R. A., Deputy Inspector-General of Ordnance, Bengal; Captain Pritchard, Examiner of Ordnance Accounts; and Major W. H. Noble, R. A., for many years the scientific adviser of the War Office, who has been sent out from England to act as Secretary. The Committee will consider many important questions connected with the maintenance of reserves of war material and the general duties of the Ordnance Department, and is expected to devise a uniform method of keeping accounts to be used in all Ordnance factories and arsenals throughout the country.

The *Pioneer* publishes the following items of Calcutta news, contained in a special telegram, dated Calcutta, 23rd February:—

The Lieutenant-Governor of Bengal proceeds to Mozufferpore to-day, to open the State Railway branch to that place.

Mr. Roberts, the billiard champion, has swollen the number of his victims during the week, though on Tuesday last he varied the monotony of victory and revived public interest in the contests by accepting defeat from Major Marr, the champion giving 600 points in 1,000 and scoring only 663 when game was called. Lord and Lady Lytton witnessed a game on Wednesday at the Town Hall, when Major Mant received 300 points out of 500 and lost: Mr. Percival Dickens, ditto. Last evening Colonel Pogson received 650 points in 1,000 and, though he, like Mr. Dickens, played with nerve and steadiness, Mr. Roberts plays Mr. Morris of the Supreme Court this evening. The champion has netted five thousand pounds by his play in Calcutta, which he repeats in October. Colonel Drummond continues to improve.

Captain Kellow Pye is still suffering severely from typhoid fever.

The Opera Committee have arranged with Signor Massa to supply an Italian company next winter.

The *Civil and Military Gazette* makes the following remarks upon a matter which, our contemporary thinks, the press in India should join in taking up and urging upon the Government:—

As practically, all over India there is no telegraphing between midnight and 4 or 5 o'clock in the morning, it would be for the convenience of the public if the wires at night were placed at the disposal of the press, and newspapers allowed to receive messages at reduced rates. In England, 120 words can be telegraphed to a newspaper for one shilling; in India the press has to pay one rupee for every twenty-four words—and only a limited number can be sent at that rate. If the Indian papers were allowed to obtain the privilege of paying even double the English rate and that too at night only, the Telegraph Department would gain considerable profit, and we hope that the heads of that Department will take the matter into consideration. But why do the Anglo-Indian Press not form amongst themselves a Press Association for the mutual benefit of themselves and the public? The Native Editors took the advantage of meeting each other at Delhi to do this, and it was proposed in the English press camp to follow suit, but abandoned. At present, we must content ourselves with such meagre and badly edited telegrams as Reuter chooses to send us; we have no interchange of communications with our brethren of the London press, and the only concession we have in the privilege of telegraphing to each other at times the English rates. If we had a little more energy and sympathy, this lethargic state of affairs might be remedied to the profit of ourselves and the benefit of the public who would get earlier and better information. But neither Governments nor gods will help those who will not try to help themselves.

The *Indian Tribune*, a well conducted native paper published at Benares, concludes an article on "the new famine policy explained" in the following words:—

The Government in this country which takes twenty-one crores of rupees every year from land is surely bound to do its best to prevent starvation and extreme suffering among the cultivating classes in bad seasons. If it did not do that it would surely be wanting in its duty. But as the Government of India say it "must be content with saving life and preventing extreme suffering." It takes all the efforts and resources of the Government to accomplish even this. When a famine occurs, there must be considerable distress; and the Government is not bound to undertake to save the people entirely from it.

It should also be borne in mind that if the Government undertook to prevent *all* suffering in times of famine—a duty which it does not fulfil in average years—the Government of India would become an "impracticable task." If every famine was managed with the extravagance and on the principles of the Behar scarcity of 1873-74, it would involve the necessity of an expenditure utterly beyond the power of the country to bear. India is poor, and taxation is already very heavy. The imposition of additional burdens will produce an amount of discontent, which will be a source of grave danger to the Government. This was distinctly realized even by Lord Mayo himself during whose reign the ways and means of the Empire were so recklessly administered. Now, it must be obvious to every sensible and right-thinking person that if Government were to prevent *all* suffering with an expenditure which is beyond the power of the country to bear, that would in itself be an evil worse than famine. It was for this reason that we never looked with favour upon the manner in which Sir Richard Temple combated the scarcity in Behar three years ago. We felt assured that Lord Northbrook's policy would have to be reversed when the next famine befel the land. All that the State can or ought to do on such occasions is to prevent extreme suffering, and to take care that no one shall die of starvation if it is in its power to avert such a result. And this is the new famine policy laid down by Lord Lytton.

THE PASS ROAD AND THE AFREEDEES.

A letter bearing the unsuggestive signature "A. B.," which appears in the *Indian Public Opinion* of the 12th instant, contains so much information relating to the existing agreements between the tribes and the Government, and is so evidently the work of a writer fully acquainted with the subject, that we reprint it below:—

To the Editor of the "Indian Public Opinion."

Sir,—Your issue of the 2nd February in the leading columns contained a statement "that a few years before the Mutiny a treaty was made with the Afreedees of the Kohat Pass, by which it is distinctly stipulated that no road is on any account to be made through the Pass."

The subject of the Kohat Pass in the present complications with the Government occupies so much of your space that it seems strange that you have not taken the trouble to inform yourself as to the truth or correctness of a statement so easily to be tested as the above. The treaty to which you refer is unkown in the Foreign Office, and I believe I may safely say that no treaty either before or after the Mutiny has, either directly or by implication, stipulated that no road is on any account to be made through the Kohat Pass. The treaty is a purely imaginary one and the reflections upon the Punjab Government or upon Frontier officers for acting in a manner which obviously implies a distinct breach of faith should fairly be withdrawn.

The only agreements of any importance, although they do not deserve to be called by the name of treaties, were with the Pass Afreedees on the 1st December 1853, by which certain sections bound themselves to protect the communications through the Pass and to maintain police posts and stations therein, rendering themselves liable for any theft or crimes committed in British territory. This agreement, which is no doubt, the one to which you refer, makes no stipulation on the part of the Government promising not to make a road. All that the Government engages is, to pay certain Pass allowances amounting to Rs. 5,400 per annum, which may perhaps be designated by some as "black mail," but which appears to be a very reasonable allowance for the police administration of an exceedingly difficult strip of independent country. The treaty with the Jawaki Afreedees of the 3rd December 1853, or of the 11th January 1854; or with the Hassan Khelys of 15th November 1853, or with the same tribe on 8th April 1867; or with the Sipah tribe of the 6th December 1853, contain no allusion to the stipulation which you have made the text of an indictment against the Punjab Government. You do not appear to have ever understood the real point in dispute. When you state that the proper course would have been to point out that it was to the interest of the Afreedees to have a road constructed, I would reply that this has been pointed out to the Afreedees, with every index finger and by every deputy commissioner, for the last 20 years. The present difficulty was not owing to the determination of the Government to make a road through the Kohat Pass, though this they would have been quite justified in doing without infringing any agreement had they been so minded, but till lately was, "You Afreedees are bound to keep your pass in such order as to render communication possible. For keeping up this communication you receive certain allowances. The state of your road at present is such that communication is all but impossible. Either improve your road or cease to draw your allowances; at any rate for such portion of the road as is out of repair." The most hypercritical opponent of the Government could hardly find anything in this to cavil at on the score of injustice or tyranny. It is entirely open to you or to any critic to say that the Government is wrong in its policy or that the deputy commissioner knows nothing of the Frontier and that he oppresses the tribes or cannot manage them, but it seems more questionable to invent a treaty with imaginary stipulations, and then charge the Government with dishonesty for not carrying them out.—A. NOTES FROM BERAR.

(FROM OUR OWN CORRESPONDENT.)

OOMRAWUTTEE, 20TH FEB.

The cotton merchants of this town have requested the Municipality to prohibit the cotton markets being opened and worked on a Sunday; they doubtless having in view the 4th Commandment! This is unquestionably a move in the right direction. Mr. R. Anderson, Chairman of the Managing Committee of the Corporation, proposed the above, and it was carried, subject to the Resident's orders. The cotton marts at Akote and Murtizspur are also to be prohibited working on the Sabbath. It is to be hoped that Sir Richard Meade will confirm the proceedings of the Municipality meeting.

From Aurungabad I learn that Surgeon McVittie has arrived and assumed medical charge of the 3rd Cavalry H. C., as announced in one of my recent "Notes." Honorary Surgeon Vernon E. R. Ardagh, Civil Surgeon of Bassim, West Berar, has been transferred at his own request to the Military Department: he is consequently posted to Aurungabad. It is probable Apothecary Duckworth will be sent to the Bassim District, where he is well known. Conductor Evans of the Ordnance Department H. C., having returned to duty from sick leave, officiating Conductor H. Bridge reverts to the rank of Sub-Conductor. It is reported that Colonel Adye, Commandant 3rd Cavalry H.C., at Aurungabad, will retire on the *bonus* at the end of the year. Colonel Bidea, of the Artillery H. C. (retired list) passed through this station the other day for England, Colonel Dun, from Edinboro, has also passed through on leave towards the Bombay side.

Energetic measures are being taken to have the proposed city water works completed before June next. Orders have been issued to put the scheme into hand at once. It is to be hoped that the Municipality will strive might and main and push through the work.

The 4th Infantry H. C. stationed at Hingolee, or rather certain men, seem to be in their glory by getting the regiment into bad odour. Several general courts-martial have been held at that station within the past 15 months for breaking the 8th Commandment! A General Court-Martial held at Hingolee has awarded two privates of the above Infantry *three years' rigorous* imprisonment each, for *stealing* out of three dwelling houses on the 19th and 28th June and 8th July last, property to the tune of Rs. 745-8. The Commander-in-Chief of India justly remarks "that the sentence is lenient for the serious offence; they were liable to imprisonment extending to *fourteen years*."

Dr. J. Howard, Civil Surgeon of this station, deserves the thanks of the public for bringing to the notice of the Municipality the fact of certain vendors of food for human consumption being afflicted with loathsome diseases. In this instance Dr. Howard has triumphantly caused to be brought into action the law prohibiting "lepers attending to stalls or shops or meddling with any produce either cooked or otherwise exposed for sale in the market." This is decidedly as it should be, and it is to be hoped that the Commissioner will be so good as to issue the necessary instructions to all Deputy Commission's "to go and do likewise" *pro bono publico*.

Colonel Nembhard, Commissioner H.A.D., is now absent on leave, I believe, for a few days. Rumours are still rife as to who will receive the Commissioner's mantle.

Colonel Allardyce's retirement is unsettled at present. Should this officer retire, Major Bell, 1st class Deputy Commissioner, now on furlough, and who was officiating Judicial Commissioner during the present incumbatant's absence, has strong claims for the appointment, and would be the right man in the right place. It would be palpable jobbery were Major Bell to be superseded; his connection with the H.A.D., his tact, ability and sound judgment gives him a prior claim to any outsider. I have just been casually told that Major Bell intends to cancel the remainder of his furlough which expires on the 9th October of the current year, he having obtained 18 months furlough to Europe in April last.

Mr. Davies, Assistant Commissioner Paper Currency Department, whose head quarters is at Akola, is about proceeding on leave; also Mr. Knowlys, Judge of the Small Cause Court at Akola.

Whooping cough among the juvenile class, I regret to say, is rather prevalent in Berar, as also fever. The days are beginning to get very warm; we are now entering into our grilling season, arrangements are being made for a flight to Chicalda hills by the *elite* of Berar.

The Executive Engineer West Berar, Mr. Hamilton, it is said is about to start "relief works" in his division. Why and wherefore is beyond my ken. Surely the large bridges at *Maidsi* and the other between Bassin and Hingolee ought to be sufficent to employ hundreds of labourers.

INDIAN NEWS-LETTER.

(PUNJAB AND FRONTIER PRESS AGENCY.)

FEROZEPORE, 20TH FEB.

The rains which a short time ago almost made us fear for the crops are over for the present though it was cloudy yesterday. *Apropos* of the crops, the wheat in a portion of the district is suffering very much the natives say, from the ravages of a small thread-like worm which grubs among the roots and renders the plants sickly and yellow. This part of the district (about Subroan) will yield not more than an eight anna crop and possibly not more than a six anna one. The gram crops is flourishing, as are oilseeds, &c.

A Colonel in the service of the Cashmere Maharaja has come in here to take charge of the warlike stores, which our Government has given to that chief. This officer, a Sikh sirdar, of course, has been taking over the stores. They consist of a 7-pounder mountain battery and 5,000 Snider and Enfield rifles, with some lakhs of rounds of ammunition. The Colonel, in gold braided imitation sealskin tunic and a gold striped Sikh turban, made most minute examinations of the mode of working the instruments attached to the battery. He knew very well all the old styles, but the new fittings and apparatus for fuzes &c. puzzled him not a little. He made copious notes as each thing was explained to him, but the face said very evidently that it was all a mystery still. The stores start to-day.

On the 14th instant, two men on their way from Nurkanda to Kotegurh were buried in the snow. Several men had to be sent up from the latter place to digtheir bodies out,

THE COTTON CROP.

We have received the following information from the Inspector-in-Chief's Office, dated Camp Ahmedabad, 23rd February:—

The acting Inspector-in-Chief reports that owing to the rainfall and cloudy weather at the beginning of this month in the Dholleras and Dhunduka districts, (when the cotton crops were nearly ready for picking) the out-turn will be less than expected. In the districts around Dholleras the cotton plant called "poomeris" is much injured and stained, and the yield from the pod is poor. Instead of giving thirty-three maunds of cleaned cotton to 100 maunds, of *papas* it will only yield thirty maunds. The variety called *Sakalia* is not so much injured. In the villages around Dhunduka where the sowing was later, slight damage has been done. The presses and gins are at work, but only doing a little business as the crop is late this season.

N.B.—The first races to be run precisely at 7½ A.M. Wednesday (21st) and Thursday (22nd) are general holidays.

This evening there was a gathering of the *élite* of the European gentlemen from our cantonment here, and of native officials and gentry to witness certain chemical, electric, &c. experiments exhibited by the head of our Vernacular College, Dr. Bhalachundra Krishna Bhatodekur, L. M., late of the Bombay Medical Service at the Vernacular College building. The building was rather small, so the meeting took place outside the temporary school house in a big shamian put up for the occasion. The place was full to suffocation by the time the experiments began, which was at 6-30. The European gentlemen dropped in one by one, and precisely at the appointed hour Mr. Melvill arrived and was conducted to his seat by the Prime Minister, Sir T. Madhava Rao.

I was sincerely gratified to witness this full gathering of the new Darbar officials of the Baroda State. There were scarcely two who could not boast of having obtained some University honours.

There was, of course, Sir T. Madhava Rao. It would be impertinent to speak of him here, as he is too well known to your readers to need any description from me.

There was Kajee Shabudin, the head of the Revenue Department, a man of considerable experience and versatile intellect, who united a perfect knowledge of English manners and customs with remarkable attainments in the English tongue. He was formerly Dewan of Cutch, next to him was Mr. Vinayekrao, the Naib Dewan or assistant minister, well-known and respected-Side by side with Mr. Vinayekrao was Mr. Cursetjee Rustomjee, the Chief Justice of the Varieht Court, (late Subordinate Judge of Surat) whose legal experience is only equalled by his theoretical knowledge of law. All these three gentlemen have recently been granted silver medals by the British Government. Messrs. Kazee and Cursetjee have been made Khan Bshadoors and Mr. Vinayekrao, Bahadoor. Several other names equally distinguished remain to be mentioned, such as Coovarjee Cowasjee, Rameshunder Gopal Deshmookh, B.A., LL.B., Rowjee Vitull, Vittal Bhow Dajee, M.A. Tapidass Dayram, M.A., Mongilal, B.A., &c., &c. which names were proved to be due to compliments to the satisfaction of the Court. Thereupon his Worship ordered the defendant to pay, in addition to the amounts claimed by the several complainants, Rs. 2-12-0, Rs. 3, and annas 12 respectively as costs, making a total amount of Rs. 14. Defendant being incapable of meeting this demand, he was sentenced to a term of one week's simple imprisonment in H. M.'s Common Jail in each case.

Saving a Minute.—Those of our readers who were out witnessing the regatta would notice a light American bark tacking across the mouth of the harbour from the north end of Thull to the transport and again to the south of Thull and back to the Inner Lighthslp Colaba, which formed a pleasing feature of the view as the boats and yachts were racing. The pilot, not to spoil sport, kept out of the way of the racing yachts and boats as he crossed their path s and as the Water Queen was about weathering the Colaba, closely followed by the Sea Queen, he considerately hove the bark in stays in time to avoid becalming the latter vessel, whereby she owes him at least a minute. We are sorry to hear that Mr. Jones, the pilot, made a false step almost dead from a height of about three feet, and sprained his ankle severely, which will incapacitate him for duty for a week or two. The H. J. Libby, being becalmed soon after the yachts rounded the Lighthslp, anchored for the night and got to sea about 6 A. M. of the 22nd.

Accident on the G. I. P. Railway.—A correspondent at Egutpoora writes:—Driver Murrel of the up goods train on the 21st instant fell off his engine between Nandgaum and Naidongree. This happened about 2 P.M. in the afternoon—another one of the results of overwork and no rest. Driver Murrel M. supposed to have been half asleep on the seat near the hand rail when a down goods passing his train gave him a sudden start and caused him to overbalance himself. The poor man is lying at Nandgaum in a dangerous condition and not expected to recover, his right hand is smashed and skull open near the forehead. The same correspondent writing on Saturday says:—Driver Murrel died this afternoon. He adds:—About a fortnight or three weeks ago there were two accidents on the line—one at Callian when twenty to thirty waggons were smashed and a Parsee guard killed; the other at Gotee, when one train ran into another (both goods trains) at the station and the engine mounting the back of the train in front, fell on its beam-ends on the platform. The driver only was hurt and is still confined to his bed, which is also the result of overwork.

Railway Collision at Masawad on the G. I. P. Railway.—A correspondent at Mhow writes:—In your issue of the 8th inst., I noticed an article regarding the above collision, and as I was one of the many passengers who feel thankful of an escape from such an untimely death, I feel deeply interested. Your correspondent draws off the affair in a rather mild manner. The shock was indeed very severe and I for one have been for our driver's prompt exertions to bring his train to a stand, which was an impossibility, though the speed was greatly reduced, a most appalling scene would have been the result and I felt under such obligations to him that I personally thanked him for his bravery, and felt disposed to offer him some recompense, but I feared my generosity would be misinterpreted. I asked him whether the Company gave a *bonus* for preventing accidents, he said it was purely a matter of taste with them. Therefore I hope his case has not been overlooked. I would most willingly subscribe Rs. 50 towards a suitable testimonial for him should the remaining passengers join in, and I am sure you would gladly assist in collecting the same. Some person or persons are gravely in fault, and no doubt the Company will speedily bring them to task about it.

Catching a Crimp.—Sharp reports as of pistol-firing were heard about 10 P.M. of the 29th instant in the northern part of the harbour. We hear that a boarding-house runner or sailor-crimp was abroad that night in pursuance of his nefarious calling in a canoe. It appears he had an assignation with some of the crew of the American bark H. J. Libby and was afloat for the purpose of stealing them. Cautiously furling his sail, when well ahead of the vessel, he let his canoe drift silently down with the tide till under the ship's bows, and was in the act of climbing up one of the bobstays, when he was hailed by the captain who had, it appears, smelt a rat and was on the alert in consequence. The runner, being startled at the unexpected hail, instantly dropped back into his boat and was in the act of making off when bang! bang! went the captain's revolver and ping! ping! went two conical bullets one on either side of the canoe within six inches of her. Mr. Crimp ceased his efforts to get away and obediently affected to "come to the gangway." As the captain stepped down from the forecastle the runner again attempted to make off when again bang! went the pistol, the bullet this time hitting the boat a few inches from where he was sitting, when my gentleman tamely enough came alongside. Captain Buckman now sent his chief officer, whom the firing had awoke, down into the tony to search her; up to this time not knowing but that the individual in her was one of his own crew. The mate, revolver in hand, went down and turning the glare of his bull's eye on the crouching figure in the centre of the canoe, beheld a certain well-know ruffian who presides over a certain den near to the old Sailors' Home. The natives in either end of the tony salaamed prodigiously and swore by the beard of *ma bap* that they were not themselves at all but entirely different persons. The captain now kept guard over the trembling wights in the canoe while the chief officer searched a ballast lighter alongside and the steward went to the forecastle to count the crew, who it is hardly needful to state were sleeping soundly, though by a singular coincidence they were better dressed than is usually deemed needful for sleeping. The mate's and steward's reports being satisfactory, the canoe was allowed to depart, the captain regretting that his ignorance of the laws restrained his desire to slit the gentleman's ears in order that he might swear to his identity another time. The runner, who up to this had been quite modest and respectful in his answers to the queries put to him, had no sooner got to what he thought a safe distance then he opened up his vocabulary and recited therefrom a mixture of Billingsgate and Fourth Ward New York oratory, the chief feature of which was a series of rapidly-mouthed explatives too horrid to listen to; so by way of silencing him the captain and mate continued firing just a little wide of the canoe till he was out of hearing. The H. J Libby tried to get to sea on the next day.

The Billiard Champion in Calcutta.—The visit of Lord and Lady Lytton, and the circumstance that Mr. Roberts was to be present, could not indulge in the extreme and luxury of witnessing diamond cut diamond in oxygen. The remarks of Sir Madava Rao kept his hearers in one continued titter from the moment he began till he sat down. He was loudly cheered.

To-morrow is a gala day. We are to have sky races on the race course near the Cantonment in the morning and Durbar at Nuzzur Baugh at 5 in the evening.

BOMBAY.

The Fort R. C. Chapel.—To-morrow (Tuesday) at 6·30 A.M., a solemn requiem Mass will be said at the Fort Chapel for the repose of the soul of the late Captain George F. Henry who met with a fatal accident on Friday morning last.

The Bombay Temperance League.—We understand that a lecture in connection with the Bombay Temperance League will be delivered by the Revd. E. A. Hume, of the American Mission, in the rooms of the Young Men's Christian Association, Dhobie Talao, to-morrow, Tuesday evening, at 8 o'clock. The room will be open to the general public.

Prosecutions by the S. P. C. A.—Muckoo Mulrao, quarryman, for working his bullock near the Null Bazaar, the animal being lame of the near foreleg, was fined Rs. 3.—Cassiram Hanmuthrow, cartman, for working his bullock in Market road, the animal being lame of the off foreleg, was fined Rs 3.

The Native Press and the Viceroy.—It is stated that His Excellency the Viceroy has asked for detailed translations of the views expressed by the Native Press in this Presidency regarding the Delhi Assemblage.

A Correction.—The statement made by us on Friday that Mr. Hamilton Maxwell is going home this year is, we find, incorrect. Mr. W. G. Hall, a partner in the same firm is, we believe, going away for a year this spring.

The Wilson Philological Lectures.—Professor Bhandarkar will deliver this evening, at 5½ o'clock, in the University Hall, the second lecture of the first series of the Wilson Philological Lectures in connection with the University. The subject is "Sanskrit and the Prakrit languages derived from it." The lectures are open to the public.

The Late Captain Henry.—An advertisement in another column announces that a public meeting will be held on Friday next in the Town Hall to consider the propriety of taking steps to perpetuate the memory of the late Captain Henry. The Hon'ble Mr. Gibbs will take the chair on the occasion.

The First Native M.D. from London.—Dr. Rustomjee Nusserwanjee Khory who had gone to England returned to Bombay by the last mail after having successfully passed the Royal College of Physicians, London. He is the first native on this side of India who has obtained a diploma from that institution. He has also after undergoing an examination for three weeks obtained the degree of M. D. at Brussels, which has been recognised by the English Consul at that place.

The Late Fatal Accident.—The fatal carriage accident which happened yesterday has deprived the Catholic community of Bombay of a leading benefactor. The gift of Rs. 1,000 with which the lamented Captain G. F. Henry cheerfully and readily laid the way among the subscribers to the St. Xavier College Fund is of itself sufficient to make his memory be cherished among us. But he was then comparatively a stranger in Bombay, and since then his benefactions have been numerous and always given in the kindest manner, so that his name will surely be handed down to those who succeed us, as of a true friend ever ready to do a service in the cause of charity and religion.—*Bombay Catholic Examiner*, Feb. 24.

Refusing to Pay Hack Buggy Hire.—On Saturday last, at the Fort Police Court, a Mr. Phelps was charged before Mr. C. P. Cooper, the Senior Magistrate, at the instance of three hack buggy drivers, with refusing to pay their legal fare for the hire of their respective buggies. The sums claimed by the three complainants were respectively Rs. 2-8-0, Rs. 3-8-0 and Rs. 1-8-0, which sums were proved to be due to complainants to the satisfaction of the Court. Thereupon his Worship ordered the defendant to pay, in addition to the amounts claimed by the several complainants, Rs. 2-12-0, Rs. 3, and annas 12 respectively as costs, making a total amount of Rs. 14. Defendant being incapable of meeting this demand, he was sentenced to a term of one week's simple imprisonment in H. M.'s Common Jail in each case.

This new and very convenient form of Mirror is sure to become a general favourite. As the figure is reflected in it *five* times, a Lady is by its aid enabled to see herself perfectly, and without changing her position at all. It is made in a variety of neat styles and forms a pretty ornament to a room. When the Mirror is folded it is less than an inch in thickness. The small space that it occupies, and the safety with which it can be packed, will especially commend it for use in Camp.
